

# Jockimo™

## Advanced Architectural Products

Please allow me a moment to explain “The Jockimo advantage”:

### Corporate Background

Jockimo, Inc - we have been supplying glass floors for 18 years.

### Corporate Expertise

Both Tim and Igor were on the sub-committee that wrote the Glass Flooring ASTM. We have written articles for CSI and spoke at the Glass America Trade Show. Igor regularly lectures at several Universities regarding decorative glass and glass flooring.

### Manufacturing location

Finally Assembly - USA

### Anti-Slip Qualifications

Our product is tested in wet and dry conditions using several Internationally recognized standards. Please see the design guide - anti slip document.

### Effectively Transparent Glass Floors.

We are the only company that has two products that are effectively transparent with anti-slip feature.

Crystal Clear™ anti-slip feature is rated for wet and dry conditions.  
Glass Sculpt™ Dot or Tread anti-slip feature is rated for dry conditions only.

### Lamination

We utilize polyam (excellent adhesion performance), sgp, and pvb. For exterior installations we advocate the use of polyam and/or sgp.

Anti-scratch - Jockimo has an anti-scratch feature called J-glass.

## Engineering

We use finite element analysis to verify each project's structural safety.

## Structural Support

Working with our partners, we can provide a complete glass flooring and/or walkable skylight system.

## Installation -

Installers in select locations.

## Product Selection -

Please go to: <https://www.jockimo.com/products/by-product-type/glass-flooringtreads/featuresoptions>

We have the widest product selection in the industry. We have kiln fire, ceramic frit, and acid etch products.

## Thermal Innovation -

We were one of the first to develop a glass flooring insulated glass unit (IGU).
